

# Developer Certification Description

*Education Services*

## **Description:**

This certification program is designed for experienced members of technical services teams. Developer certification demonstrates your proficiency in Proliance development and extensibility techniques.

The certification program consists of two components, both accessible through Meridian e-Learning Center.

- **Multiple Choice Questions Exam:** You will be required to complete a multiple choice exam of approximately 50 questions. Each test must be completed with 100% score. Allow 1 hour for completing the multiple choice exam, but you can stop and resume the tests at anytime or retake, if needed.
- **Hands-On Exam:** You will be presented with case studies through which you will demonstrate your working knowledge of Proliance development techniques. Allow 8 hours to complete the case studies.

## **Pre-Requisites:**

Completion of Proliance Product Certification is required before attempting the Developer Certification. A thorough understanding of the application is essential in order to complete the Developer certification. This knowledge may be obtained through a combination of work experience, attending one or more of the Meridian Technical Services Summits, and participating in the Meridian Developers Network.

## **Topics:**

- API Foundations
- DB Views
- Message Bus
- SmartDocs

## **Objectives:**

Upon completion of this program participants will demonstrate the level of technical expertise necessary to successfully extend Proliance solutions. Participants will receive a plaque verifying that he/she is a Proliance Developer Certified and will also be registered in the Meridian Systems database for future reference and verification.
